

# Intellectual & Developmental Disabilities Physician & Medical Director

## Corewell Health Grand Rapids, Michigan

Corewell Health in Grand Rapids, Michigan is seeking a compassionate, mission-driven **Family Medicine Physician** to join our innovative **Intellectual & Developmental Disabilities (IDD) Integrated Practice**.

This is a unique opportunity to help build and shape a specialized, interdisciplinary care model designed to meet the complex needs of patients age 16 years and up with moderate to severe IDD. The primary care physician in this practice will play a key leadership role in advancing care delivery, improving outcomes, and ensuring a sustainable, patient-centered model.

### Position Highlights

- Innovative care model that focuses on the IDD population providing whole-person care
- Balanced role with leadership responsibilities that will be approximately 40% traditional primary care, 40% primary care for the IDD population, and 20% administrative time
- Extended visit times for the IDD population with longer, more meaningful patient and family interactions
- Multidisciplinary clinic with a behavioral analyst (BCBA), social work, nurse navigator and psychiatry support
- Purpose-build clinic with provider, patient and family needs at the center

### Select Responsibilities

- Provide comprehensive primary care services for patients age 16+ with moderate to severe IDD
- Collaborate with interdisciplinary team members to coordinate complex care needs
- Support development and growth of the practice model, including care pathways and best practices
- Build strong relationships with internal and external stakeholders
- Participate in education and advocacy efforts for IDD care across the system and community
- Contribute to program innovation and quality improvement initiatives

## Qualifications

- MD or DO, Board Certified or Board Eligible in Family Medicine
- Interest in, or passion for caring for individuals with IDD
- Fellowship training in IDD preferred, but *not required*
- Open to new graduates/residents with a strong interest in this population

## About Grand Rapids, Michigan

Located on the western part of the state, Grand Rapids is the second largest city in Michigan with a growing metro area population of over 1 million people. It has been recently identified by *Forbes* as the #1 best city to raise a family based on cost of living, housing affordability, commute, and education. In 2022, *US News* ranked Grand Rapids 16th best place to live in the United States out of 150 metro areas.
